Software developer

darshannayak580@gmail.com +91 8431631896 haveri LinkedIn GitHub

PROFILE SUMMARY

Motivated Computer Science engineering student with hands-on experience in full-stack web and Android application development. Proficient in Java, HTML, CSS, JavaScript, and MySQL, with the ability to build end-to-end applications. Developed projects including a Library Management System and an Android-based job portal. Certified in Java Full Stack Development and Android App Development using Generative AI, and seeking a software development role to apply technical skills and deliver impactful solutions.

SKILLS

Java Android App Development HTML CSS JavaScript MySQL Database Management Firebase Integration
Front-End Development Responsive UI Design Back-End Development Advance java Database Connectivity (JDBC)
Git & Version Control

PROJECTS

Library Management System

2025

HTML, CSS, Javascript, Java, MySQL

Developed a Library Management System application to automate book management, user registration, and borrowing operations for efficient library administration. Implemented secure user authentication, book issue and return management, search functionality, and MySQL database integration for maintaining book and user records efficiently. Features included book inventory tracking, role-based access management, search and filtering functionality, and Java-based application development.

Namma-Kelsa (Self-Employment)

2026

Android Studio, Java, XML, Firebase/MySQL

Developed an Android-based job portal application connecting job seekers and recruiters with secure login and job application features. Implemented a responsive mobile UI, job search and filtering functionality, and Firebase/MySQL database integration for efficient user and job data management. Features included user authentication, profile management, responsive mobile interface design, and Android application development.
